WE CALL the attention of our readers to a communication in to-day's issue from the acting Commissioner of Internal Revenue, Mr. E. Henderson, relative to adulterated food in the District of Columbia. The article is worthy of careful perusal and immediate action, and every provision is made by the authorities for the accomplishment of the desired purpose, if those most interested will do their part in their own defense. The law providing against adulteration in food and drink is weak only in its lack of provision against the adulteration of liquors other than malt. Bad whisky certainly does enough harm to

THE SENATE, after eight months' more or less discussion on the Tariff bill, came to a vote yesterday without one convert to either side. Why didn't they take the vote long ago and save wear and tear on their lungs?

REPRESNIATIVE KILGORE of Texas, in his speech Monday on the City Postoffice bill, said: "Beside, I take it that an additional clause ought to be put in this bill one who purchases any article of food or and all others providing for public image in the District of Columbia who thinks provements in Washington. There has the article has been sold to him contrary to never been, to my knowledge, a public any provision of the recent act of Congress to improvement prosecuted in this city which did not wind up with a scandal more or less disgraceful. There should be a provision in the bill, if this purchase is to be made, for the appointment of a Congressional committee with authority to sit in vacation and to send for persons and papers to investigate the scandal which must inevitably grow out of this transaction."

We nominate Mr. C. Buckley Kilgore of Texes as chairman of that committee and call for his credentials.

THE OUTLINE of Consul Sewall's testimony before the Senate Committee on Foreign Relations, printed in another column, reads like a romance, so incredible seems the statement that Germany and Great Britain entered into an agreement to parcel about the islands of the Pacific between them, wholly regardless of treaty stipulations. The history of the supine non-action of our own State Department in the matter whereby the term American became a synonym for faithlessness and cowardice is equally difficult to believe.

WE HAVE received from Mrs. Victoria Claffin-Woodhull-Martin, now in Paris, a brochure on "Stirpiculture; or, the Scientific Propagation of the Human Race." It is to be hoped that Mrs. V. C .- W.- M. isn't taking herself around Europe as an example of her theory.

MRS. CAROLINE H. MILLER of Maryland, in speaking of Miss Willard, at the Woman Suffrage Convention yesterday, said: "Hers is a name which needs no defense from man or God." A Matter of Importance to Residents of

the District,
EDITOR CRITIC: Inclosed herewith please find ten sets blank forms to be used by anyprevent the manufacture or sale of adulterated food or drugs in the District; that is to say, if food or drugs in the District; that is to say, if he suspects the article either to be mixed, colored, stained or powdered with any ingredient or material so as to render it injurious to health, or to be a manufactured article composed in whole or in part of diseased, decomposed, offensive or unclean animal or vegetable substance, or to be not of the nature, substance and quality of the article demanded by the purchaser, or to be an adulterated article, i. c., from which a part has been subtracted so as to affect injuriously its quality, substance or nature, the person selling the altered article not making a disclosure of the alteration.

For instance, a parent may have bought for will the suffrage ladies who are in convention here go out and help us lick Germany if we will give them the ballot? The ladies should never be

rious to health.

He may also suspect that the milk is diseased, having been obtained from cows suffering with tuberculosis or fever, or that the animal or vegetable oil with which the cream has been supplanted is offensive or unclean. He may also suspect that the article pur-chased contains cotton seed oil, a vegetable oil not cream, an animal oil or that the sugar and water contained therein are directly de rived from added cane sugar or glycerine and the Potomac River respectively, that is to say, not of the nature, substance and quality of that demanded.

Or, finally, the purchaser may suspect that the cream was subtracted from the milk be-fore he purchased it, thus seriously affecting its quality, substance or nature, although the person who sold him the article did not make a disclosure to him of the abstraction.

person who sold him the article did not make a disclosure to him of the abstraction.

The case of milk has been cited to illustrate the various provisions of the law. As a mutter of fact, however, milk is seldom poisoned, the adulterations consisting mainly in the removal of the cream and in the addition of water.

water.

Judging from the experience in England under the "Sale of Food and Drugs Act." on which the act under consideration is based, the great majority of adulterations will be found to arise under section 4, which provides that no person shall sell any article of food or drug which is not of the nature, substance and quality of the article demanded by the purchaser. It is expected, as a matter of course, that

the Health Officer of this District and the other officers named in the act will do all in other officers named in the act will do all in their power to carry out its provisions. It is evident, however, that Congress in giving every wronged citizen an opportunity to se-cure the analysis of every article suspected to have been sold to him centrary to the pro-visions of the act, realized that the evils of adulterations were too great and widespread to be suppressed through the exertions of these officers.

But the public at large can only be ef-fectually reached in these days through the public press. I have therefore taken the lib-erty to send the inclosed blanks and a few copies of the regulations and the laws, and to United States they will make Cincinnati the capital of the country and camp out on her music and her beer.

EARLY MORNING NEWS.

West Virginia's Senatorial Fight. In the Senatorial contest in the West Virginia Legislature the same element of the Democratic party that defeated Camden are combining against Kenna. After some wrangling yesterday the Democrats made a split, voting twenty-six for Kenna, eight for Wilson and fourteen scattering. Goff. Republicans neceived forty votes. The Republicans have organized the Senate from top to bottom with their own men. A bot fight was conducted in the Senate all day, involving the main feature of the gubernatorial contest. The Democrats insisted that the Senate should proceed to the House at once to pass upon the election returns. The Republicans refused to do so unless a pledge was given them that the result would be declared on the face of the returns, as the law provides. They were in the majority, and, of course, controlled the matter. To-night there are indications that there may be another long-extended dead-lock over this question. combining against Kenna. After some

How Delaware Made Her Mistake. Senator-elect Higgins has telegraphed Senstor Edmunds, chairman of the Judiciary Committee, respecting the credentials of his election as United States Senator, which were re-ferred to the Judiciary Committe when pre-sented, on motion of Mr. Edmunds, who called attention to the fact that they were not called attention to the fact that they were not made out according to law. Several reasons were advanced for their informality, one being that the officers of the Delaware Legislature had alighted the Governor and Secretary of State by sending their certificate of election. Mr. Higgins explained to Senator Edmunds that the credentials were made out in accord-ance with an old statute of Delaware, passed many years before the act of Congress of 1866, regulating the angless. many years before the act of Congress of 1866, regulating the subject, and that the Legisla-tive officials believed they were acting strictly in accordance with law.

Delaware State Officers. The Republican members of the Delaware General Assembly have nominated candidates for State treasurer and auditor of accounts. For the first office Charles H. Atkins, a vessel owner of Milton, Sussex County, was the owner of Milton, Sussex County, was the choice of the caucus. For auditor Wm. E. Knowles, druggist of Frederica, Kent County, was nominated by acclamation. These officers are appointed by joint resolution originating in the House and concurred in by the Senate. Consequently they will fall through, as the Senate, being Democratic, will simply refuse to concur and the present incumbents—State Treasurer Herbert and Auditor Boyce—will hold over until the close of the legislative session, after which the appointing power will rest in the Governor. rest in the Governor.

Hornung Released by Boston. Hornung, the left-fielder, was, without any warning, released by the Boston management yesterday afternoon. He has been with them yesterday afternoon. He has been with them nine years, and this action on their part is a great surprise to him. He was getting \$2,000 a year salary, and only a short time since when Manager Barnie of the Baltimores tried to secure him, the Bostons asked a fancy price for his release. The Boston Club people claim that he has been failing during the past two years, and that their new acquisitions make it possible to dispense with him.

Senator MoPherson Re-elected.

In the New Jersey Senate yesterday ballot ing for United States Senator was proceeded with. All of the Democratic members voted for John R. McPherson, and the Republicans for John R. McPherson, and the Republicans for William J. Sewell. The ballot resulted: McPherson, 11; Sewell, 10. President Werts then declared Senator McPherson re-elected on the part of the Senate for another term of six years in the United States Senate. In the Assembly the balloting resulted: McPherson, 32; Sewell, 28—a straight party vote, Mr. McDermit joining with his colleagues in voting for McPherson. Both houses will meet in joint session to-morrow, when avother formal ballot will be taken electing Senator McPherson to another term in the United States Senate.

The Scheme to Defeat Washburne The Senate and House committees of the Minnesota Legislature to investigate the charge of bribery in the recent Senatorial cau-cus were in session yesterday. Their meetings cus were in session yesterday. Their meetings were strictly secret. There has been strong feeling that the investigation is a scheme to defeat the action of the caucus, and that a combination of Democrats and boiting Republicans would elect some person not prominently before the Legislature as a candidate. The House had decided by resolution to vote for Senator, and yesterday the matter came up. The House committee was not ready to report, and the question was whether the House should vote now or await the result of the investigation. A warm debate was House should vote now or await the result of the investigation. A warm debate was aroused, it being held on one side that a vote was required at once by the Constitution, and on the other side that the law and right was for a postponement until the committee could

A Decision Against the Boycott. A decision of great importance to all the States was rendered yesterday at Cincinnati in Judge Buckwalter's court. N. & G. G. Parker sued the Bricklayers' Union of that city and certain members of it for damages for a boycott. The verdict was for the plaintiff, and their damages were assessed at \$3,700. The jury was a unit throughout their deliberation in the opinion that the plaintiffs should recover. The question was as to the amount they were entitled to recover. On the first ballot one juror voted to fix the damages as law as \$700 and one juror fixed them as \$15.000. low as \$700, and one juror fixed them at \$15,000. Fourteen ballots followed, during which the jury gradually came together.

The first count of the petition charged the defendants with printing and distributing a circular, in which it was stated that the plaintiffs do inferior work as contractors for the putting up of buildings, and that they em-ploy "scabe" and unskilled workmen. As to this charge the court applied the familiar law

They Mobbed Their Rabbi. M. H. Horwich, K. Horwich and four other Russian Jews were arrested Monday evening for an assault on Rabbi Goldstein in their syr agogue at Omaha. The rabbi, Alexander Goldstein, recently advanced the theory, at a meeting of his people, that it was Simon Peter and not Jesus that was crucified on Calvary. A number of the congregation rushed towards the pulpit, and he was obliged to run through the back door to save himself. Sunday Goldstein brooched the theory again at a regular meeting in the synarogue when at a regular meeting in the synagogue, when he was everwhelmed with such a volley of imprecations and church furniture as con-vinced him that he was still in the minority. He escaped from his assailants, however, and

now six of the leaders are behind the bars. Senator Cullom Will Return. Both branches of the Illinois Legislature oted vesterday for a Senator from this State for the next six years, to succeed Hon. Shelby M. Cuilom, the present incumbent. The re-sult shows that when the houses meet in joint session and the result is declared to-day, Mr. Cullom will be chosen his own successor. The result of yesterday's balloting was as fol-lows: Senate—Cullom, 35; Hon. John M. Palmer (Dem), 13. House—Cullom, 80; Paimer, 68.

Jobs Only for Democrats. The Council Committee on Grounds and Buildings of Richmond, Va., has decided to pass upon the political proclivities of stone-cutters, mechanics and all other laborers hereafter employed at work on the new City Hall. It is said this virtually means that no Republicans will be given a job.

The Paluce Car Interests. The different palace car interests had another meeting in New York yesterday, but the negotiations were not concluded. Arrangements are now being made to consummate the sale of the Union Palace Car Company. The rights of the Atchison and two other overland roads are also being negotiated for, and all the deals will probably be closed on Friday before President Pullman leaves

STRONTIA

Mineral Spring Water.

This extraordinary water-remarkable as a great natural remedial agent and, at the sam time, when carbonated, a most delightful and exhibitating beverage-was discovered in Centennial Year 1876, on the farm of Mr. O. P. Macgill, in Baltimore County, situated on Green Spring avenue, about five miles north of Druid Hill Park, and one-quarter of a mile from Hill Park, and one-quarter of a mile from Strontia Spring station, on the Green Spring Branch of the Northern Central Railway. The cievation is nearly sees hundred feet above tide. Strontia water, while possessing astonishing curative properties, is especially in its highly effervescent state, a delightful and refreshing beverage, promoting digestion, etc.

It will cure Gout and Rheumatism.

Is will relieve any disordered condition of the Liver, Stomach and Bowels, Diarrhoca and Dyemiery,

It will restore the Tone of the Stomach and in It will restore the Tone of the Science or appetite. It will be found of great service in Screfulous Affections and Weakness of the Lungs. In offering this water to the public, the Company desires to call attention to the standard of the citizens who testify to its worth, not knowing of another product which shows at home higher testimonials of excellence.

MEDICAL CERTIFICATES.

From the President of the Board of Health for the State of Maryland.

Towson, May 26, 1887.

O. P. Macchia, Esq. Dear Sir:—It gives me great pleasure to state that I was entirely releved of Muscular Rheumatism of six months' standing by the free use of your Strontia Water. I suffered much pain and inability to use my arms. I tried a number of remedies without effect. Noticing the excellent results in Dr. Chancellor's case, and having always a bigh opinion of the water, I used it, with the above result, and have had no return of the Rheumatism. Sincerely yours,

From the Secretary of the Board of Health for the State of Maryland.

Heaith for the State of Maryland.

Col. O. P. Macgill.

Dear Sir: Your Strontia Water has certainly done me a great deal of good. For several years I suffered painful attacks of Rheumatic Gout, for the oure of which I was induced to visit the principal springs and water cures of Europe, as well as many in this country, but without any positive relief. I have received more benefit from drinking Strontia Water than from all other sources, and I must regard it as a very valuable remedial agent. As a table water and food solvent it is unsurpassed, and especially valuable in many forms of Dyspepsia.

Very truly yours,

C. W. CHANCELLOR, M. D.

We could add hundreds of others to the above.

We could add hundreds of others to the above, but space will not permit.

Manner in Which the Water is Put Up and Sold.

Strontia Water is sold in effervescent condition, in pint, quart and half-gallon glass bottles. Each bottle bears upon its face a yellow label having a red centre and red side squares, the centre bearing a fac simile of the Strontia spring house, which constitutes our Trade-Mark, and a yellow neck label having upon it the word "Strontia." The water is also delivered in effervescent condition, in siphons and founts.

In the state in which it is taken from the spring, it is sold in pint, quart and half-gallon glass bottles, labeled as above.

In literature her intelligence does not go beyone passages. Her lover has given her the new Heloise to read. All the philosophy of it tires her. She understands only one thing in the book—that flore are two lovers who profess and malyze love a great deal but who love very little—in which she is perfectly right. Briefly, she is a woman, always a woman, sololy a woman; but a woman of that time, of that country, and not at all of your time or country.
